the new generation in security control/surveillance

Operational Plug-In modules featuring factory installed options and field-selectable settings offer the versatility demanded by today's central surveillance and control requirements.

Color-coded ALARM/SECURE/BYPASS conditions of up to 40 individual locations are indicated and controlled from the compact console (17" W × 7" H × 10¼" D). The system is field expandable up to 120 stations.

Any type of switch, sensor or alarm loop providing dry switching can be connected.

DADCO monitor center

Model CMC specifically designed to meet any multiple location monitoring requirement

- HOTELS & MOTELS
- SCHOOLS & UNIVERSITIES
- OFFICE BUILDINGS
- SHOPPING CENTERS
- MUNICIPAL BUILDINGS
- HOSPITALS
- NURSING HOMES
- WAREHOUSES
- LIBRARIES
- EMBASSIES
- REFINERIES
